Amaryllis

ISMENE CALATHINA

(Peruvian Daffodil)

A choice flowering bulb, blooming shortly after planting, producing clusters of striking, pearly white flowers. Very fragrant. Do not plant before soil is warm. Before freezing weather sets in, bulbs should be lifted up and stored in a dry, warm place during the winter. 60c each; 3 for \$1.50; \$5.50 per doz.

For Indoor Beauty GIANT HYBRID AMARYLLIS

When the ground is frozen hard and the landscape is bleak and barren, these gorgeous Amaryllis will fill your home with luxuriant tropical beauty. Originally from Southern Africa, these bulbs, which produce large, Lilylike blooms beautifully formed and colored, are amazingly easy to grow. Just plant the bulbs in a six- or seven-inch pot, with rich, sandy soil, preferably including a little leaf mold, leaving the crown of the bulbs uncovered above the soil.

We are pleased to offer you a mixture of striped colors ranging from pure white and varied shades of pink to deepest red.

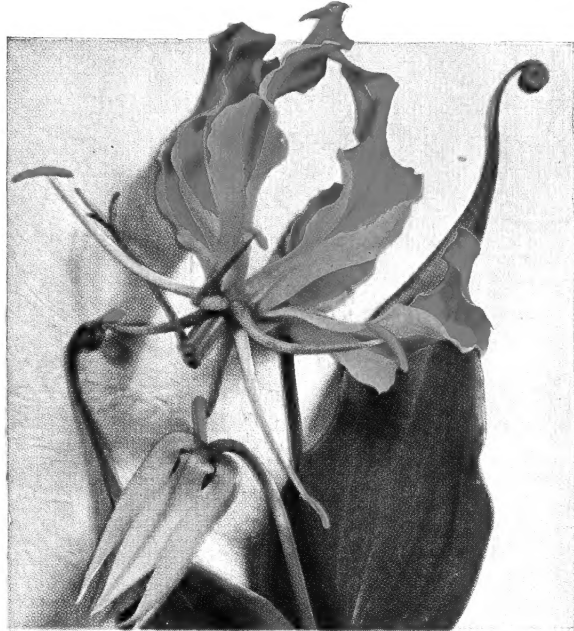

Giant size bulbs, 65c each; 3 for \$1.50; \$5.50 per doz.

Ismene Calathina

CLIMBING LILY (GLORIOSA ROTHSCHILDIANA)

A splendid low climber, easy to grow in the garden; it does well in sheltered spots out-of-doors. Grows 5 to 6 feet high, producing a dozen or more gorgeous Lilylike flowers which open to a bright yellow and red, but change to a deep scarlet. In bloom through the summer and autumn months. Most unusual and rare garden bulb. Store tubers like Gladioli during the winter; may be used season after season. \$1.65 each; 3 for \$4.50

Climbing Lily (Gloriosa Rothschildiana)

New!

ACIDANTHERA Bicolor MURIELAE

(Abyssinian Gladiolus)

Although not a true Glad, this novelty resembles them very closely and should be handled in the same manner. The white, Orchidlike flowers, with purple blotch, have a distinctly sweet fragrance. Easily grown, it produces bulblets like the Gladiolus and is a good propagator for your garden. Blooms in August. \$1.55 per 6; \$3.00 per 12; \$21.00 per 100

TIGRIDIA (Tiger Flower)

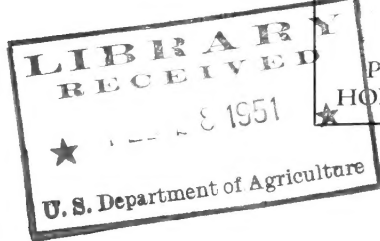

Also known as Mexican Shell Flower, these unique, but little known flowers come from the ancient gardens of Mexico. Flowering in midsummer, the three outer petals form a triangular pattern which is repeated in the arrangement of the three smaller center petals. These center petals are curiously spotted, from which the name "Tiger Flower" is derived. Although the individual flowers last only one day, plants are free blooming and lend a dominant color note to your garden for many weeks. Plants attain a height of 2 to 2 1/2 feet, with short sabre-like foliage, and may be used as cut flowers if the stems are seared immediately after cutting. Bulbs should be planted 4 inches deep in the spring when the soil is thoroughly warm. They prefer rich soil and full sun. In late autumn the bulbs must be dug, dried, and stored in a cool, dry place for the winter.

Varied shades of brilliant orange, scarlet, yellow, pink, white and lilac, blotched and spotted with shades of crimson and maroon. \$1.75 per doz.; \$12.00 per 100

HARDY GARDEN LILIES

LILIUM AURATUM. "Gold Band Lily." One of the finest Lilies known. Its large, graceful, fragrant flowers of ivory-white are thickly studded with chocolate-crimson spots and striped golden yellow through the center of the flower. Size 8 to 9 inches in circumference. Immediate delivery. 65c each; 3 for \$1.85; \$7.25 per doz.

LILIUM REGALE. Regal Lilies give your garden a final touch of beauty. New and hardy Lily, native of Northern China, and very easily grown, 4 to 5 feet tall, flowers are ivory-white, trumpet-shaped with soft yellow throat. Very fragrant. Blooms in July. Will give increasing beauty for many years without transplanting. Immediate shipment. 40c each; 3 for \$1.10; \$4.00 per doz.

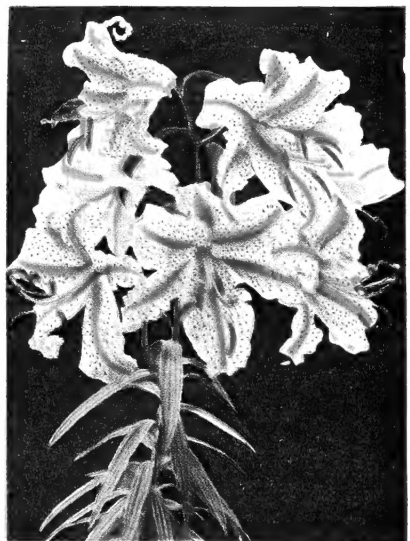

Lilium Rubrum

LILIUM RUBRUM. Rich ruby-carmine on white, stout of substance, with broad petals. This variety stands out prominently because of its vigorous growth as well as size and depth of coloring. A real beauty, outstanding and different. Blooms in August, 8 to 9 in. in circumference. Immediate shipment. 60c each; 3 for \$1.75; \$6.75 per doz.

LILIUM RUBRUM MAXIMOWICZI. Large flowers of orange-red which are spotted purple and brown, growing to a height of 4 to 5 feet. Japanese type Lily. Stem-rooting; plant 6 to 7 inches deep. Immediate shipment. 3 for 90c; \$3.25 per doz.

LILIUM, ORANGE TRIUMPH. A startling introduction of really brilliant orange in the Umbellatum class, which has created a remarkable enthusiasm in the Netherlands. Height 3 1/2 feet with erect flowers. An outstanding Lily of a strikingly brilliant color. Immediate shipment. 3 for \$1.25; \$4.50 per doz.

Lilium Auratum

LILIUM CANDIDUM. "Madonna Lily." (Also known as June Lily.) This is the earliest outdoor garden Lily and one of the oldest, loveliest and best known varieties. You have often admired it, with its rich perfume and snow-white flowers, from 3 to 15 on a stem. It is very hardy and will thrive in any light garden soil, with plenty of light and air. Shipment will be made in August.

Large Bulbs: 65c each; 3 for \$1.75; \$6.50 per doz.

Medium Bulbs: 45c each; 3 for \$1.25; \$4.50 per doz.

TUBEROUS BEGONIAS

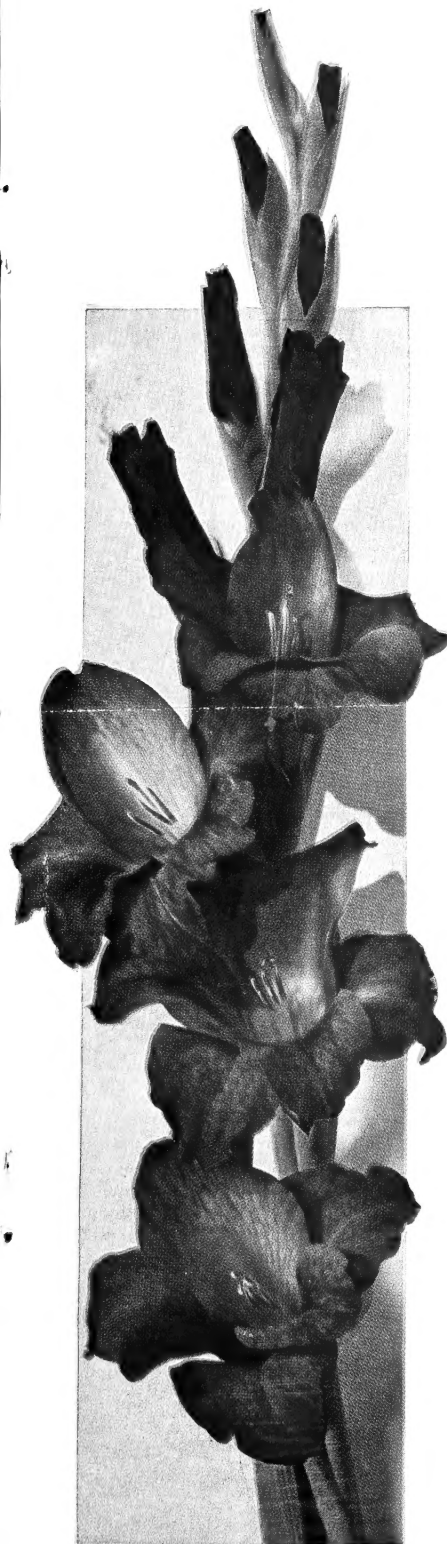

(Imported from Belgium)

These gorgeous summer flowering bulbs produce brilliant flowers which are carried well above the abundant foliage. They thrive superbly well in moist soil in shady spots. Bulbs may be started indoors in pots in March or April and transplanted outdoors when warm weather arrives, or they may be planted outdoors from mid-June on, or earlier, providing the soil is warm. Bulbs should be planted about 2 inches deep. Lovely delicate shades, as well as brilliant colors, as follows:

Violets

NEW ROYAL ROBE. A most floriferous Violet, which makes a beautiful globular shaped plant, about 10 to 12 inches high. The dainty flowers show very prominently on top of the foliage, and are of a lustrous shade of deepest violet-blue. Large, moderately fragrant, on 12-inch stems. The most outstanding new Violet. 45c each; \$1.30 per 3; \$4.50 per doz.

WHITE WONDER. An unusually lovely new white Violet. Blossoms are pure white with the center of the flower faintly marked with veins of pink and blue. Delicately beautiful and fragrant. 45c each; \$1.30 per 3; \$4.50 per doz.

VESPER IRIS (Dichotoma)

The graceful filigree of the branches of these Vesper Iris is studied with from one to two hundred jewel-like flowers, truly a mammoth bouquet. The delicately colored blossoms, which at a distance resemble a multitude of gorgeous butterflies at rest with motionless outstretched wings, varying in color including such hues as translucent lavender with markings of mahogany, copper, lemon, and orange-brown.

The Vesper Iris, which is exceedingly easy to grow, bloom for a month during July and August, when flowers are scarce. Vespers resist both severe cold and intense heat with impunity. Be the first in your locality to grow this unique Iris. 40c each; 4 for \$1.00; \$2.75 per doz.

NEW MODERN IRIS Giant Bearded Garden Varieties

This modern Iris yields large returns for an exceedingly small investment in time and money. It is perfectly hardy, produces huge blossoms of a great variety of hues, and increases from year to year. It requires no special care, and will withstand intense heat and prolonged periods of drought. Shipments of these Iris will begin in AUGUST. The following varieties have been selected with great care so as to include outstanding sorts which may be purchased without damage to your pocketbook.

ELMOHR. A huge mulberry-rose Iris. Flowers are almost unbelievably large and long lasting. A frequent blue ribbon winner at flower shows. 75c each; 3 for \$2.00

GREAT LAKES. A beautiful light blue of ideal form and strength. A Dykes Medal Winner. 75c each; 3 for \$2.00.

JAKE. A glistening white of heavy substance with branched stems, recommended. Highly fragrant. 60c each; 3 for \$1.50

OLA KALA. A rich deep yellow. Brilliant, flaring and ruffled flowers on a tall stem. 1948 Dykes Medal Winner. \$1.25 each; 3 for \$3.45

PRAIRIE SUNSET. The rich colors of the setting sun possessed by this outstanding Iris give it a glowing appearance, which is impossible to describe. \$1.00 each; 3 for \$2.70

TIGRIDIA (Tiger Flower)

Also known as Mexican Shell Flower, these unique, but little known flowers come from the ancient gardens of Mexico. Flowering in midsummer, the three outer petals form a triangular pattern which is repeated in the arrangement of the three smaller center petals. These center petals are curiously spotted, from which the name "Tiger Flower" is derived. Although the individual flowers last only one day, plants are free blooming and lend a dominant color note to your garden for many weeks. Plants attain a height of 2 to 2½ feet, with short sabre-like foliage, and may be used as cut flowers if the stems are seared immediately after cutting. Bulbs should be planted 4 inches deep in the spring when the soil is thoroughly warm. They prefer rich soil and full sun. In late autumn the bulbs must be dug, dried, and stored in a cool, dry place for the winter.

Varied shades of brilliant orange, scarlet, yellow, pink, white and lilac, blotched and spotted with shades of crimson and maroon.
